BULLETIN ADS. ARE A LITTLE BETTER THAN ANY OTHER

EDITION

An advertisement should be inspired by cordiality, as if one would say, "Come and see me. I have something of interest to show you." The first requisite for success in business is to have the something of interest to show; and the second is to invite people to come and see you.

THE EVENING BULLETIN

will attend to that part of the undertaking in the MOST SATISFACTORY MANNER.

### MANY SPLIT TICKET VOTERS ARE FOUND

Both Fourth and Fifth Have Very Many Scratchers

The Republican campaign workers are at present busy sifting up the political situation in a most systematic manner. Every precinct is being handled individually, and the political choice of each individual voter is being figured as near as possible. While a good Republican majority is shown by these calculations, the Democrats coming next and the Home Rulers ending the procession, the most disquieting feature is the number of split ticket voters which have been found. There will apparently be more of these this election than there have ever been before, and when the split ticket vote should fall in with the Democrats, the combination will be sufficient to beat the Republican candidates.

The split ticket in the Fourth will concern mainly the Delegate, the Sheriff and the Deputy Sheriff. There are many white voters who will vote for McClean in preference to Kuhio, and a considerable number of disgruntled Republicans will scratch Brown and Vida, and vote the rest of the Republican ticket.

In the Fifth the split ticket is more of a surprise, as the Hawaiians as a rule are straight ticket voters. Here Kuhio, Brown and Vida are solid, and the scratching will mainly be done on the Supervisors and Senators.

The Democrats are figuring that their own people will vote straight, and that they will be helped out by the ticket-scratchers in the Republican party. In this connection they hope that the manifesto of the Civic Federation will do them considerable good.

"I don't think that the endorsement of the Civic Federation cuts much of a figure," said Chairman of the Democratic County Committee "Shanks" Mosman this morning. "But their disapproval of candidates will prove to be a strong drawback for the candidates against whom they have declared themselves. The religious Hawaiians, those who are members of Hawaiian churches and religious organizations, will vote against these men. These votes will amount to about 400, which, coupled with the white Civic Fed vote, will make a bunch of 600 votes."

### PARKER BUYS LOT

A big residence lot in Nuuanu valley, opposite the H. Schultz residence, was this noon sold at auction by J. F. Morgan. There were about half a dozen bidders, but Col. Sam Parker finally secured the place for \$4500. The property has a frontage of 305 feet and is 2,056 acres in extent.

Judgment for the plaintiff was given today in the Circuit Court in the ejectment case of Liliuokalani vs. Manuel J. Gonsalves.

## Territorial Grand Jury Brings In Ten Indictments Charging Perjury and False Registration

The report of the Grand Jury which was presented to Judge Lindsay yesterday afternoon sprang the result of the election investigation which has been going on for the past few days by that body. Ten indictments were presented charging perjury in connection with registrations. Three of those named on the indictments, J. Lor Walsh, of Indian doctor fame; Andrew M. Boyen, a water tender on one of the small boats in the harbor, and H. Adolph Volberg, were arrested and brought before Judge Lindsay this morning, where they all three entered a plea of not guilty.

The charge against the men will be that they registered for the coming election giving their place of residence as at the corner of Richards and Queen streets, Kakaako, while they really lived in another neighborhood. There is no idea expressed that any of the men were not entitled to vote, but that they made a false statement to the Board of Registration in regard to their residence.

Sam Johnson was also considered for indictment by the Grand Jury and the rumor round the town has it that he only missed being brought before the court by two votes. In his case he has up to the time that he registered, lived at the Walkiki turn, but just before going before the Board of Registration

he moved down to a room in Kakaako, making that his official residence. In order to be sure that he could not get into any trouble over the matter, at the time he was registered he asked the chairman of the Board whether he could take up his residence in Kakaako if he saw fit and was told that he could and so chose that place.

One of the leaders of the Republican party when asked what the reason could be for men to change from one precinct to another made the following statement:

"I am not sure of the matter but it seems to me that the idea is to obtain more delegates in the county convention. If a district can roll up a big vote they will under the rules be allowed more delegates. Now Klemme, who owns a boarding house at Richards and Queen, and who is somewhat of a politician, would naturally like to see his district well represented in the convention and it may be that there has been some scheme planned to bring in voters from other precincts to make that one stronger."

"I do not believe that the men who have been indicted can be proven guilty of any offense as they have a perfect right to take up a residence where they see fit and if they had a room at the corner of Richards and Queen street when they registered and have lived

there since, they are entitled to vote from that district. If they had a room at Richards and Queen at the time they registered even if they have not lived there since, they are still entitled to be free from prosecution, as they have not voted yet and unless they should do so there could be no charge made against them."

Klemme claims that the men in question are not registered from his house and the address is, of course, indefinite, as there are four corners to choose from and he says that the men do not all live in his house. Where they do claim a residence will be shown at the trial.

When the indictments were read in Judge Lindsay's court this morning by Deputy Attorney General Prosser, the three defendants pleaded not guilty and Judge Gear, their counsel asked for an immediate trial. Judge Lindsay replied that his calendar was in such condition that he could not set the case for any day before November 8, after election.

Judge Gear then said: "Your Honor, I do not believe that it is right that these men should be kept waiting for trial till after the election has passed. They have been given a one-sided trial before the Grand Jury already and there is little

### ANOTHER POINT IN RE-ISSUE MATTER

Holders of Such Stock May Have To Suffer

A new point has been raised in the matter of the re-issuance of stocks in the place of those which were destroyed in the San Francisco fire, which threatens to put the holders of such certificates up against it to some extent.

The Stock Exchange, when it took up the matter, after careful discussion, decided that it would not handle stocks bearing a re-issue stamp, such as were placed on the stock certificates issued by the plantation agencies in the place of those which had been destroyed. A committee was appointed to take up the matter with the various agencies, the idea being that the re-issued certificates should be "clean," as otherwise they could not be handled by the Exchange, while security to offer protection in case the original certificate for which the new one had been issued, could be provided in the form of a bond furnished either by an individual or a surety or fidelity company.

In the meantime one of the local

### DON'T BE LAUKEED

Fellow voters and particularly Hawaiians, make those who tell you not to vote the straight Republican ticket answer certain questions. Ask them, have not every one of you advised that the rights of franchise be taken from the Hawaiian people? Ask them "Have ever one of you said a word to give the people their rights by helping toward County Government?" Ask them if they have not urged that our Territorial government be wiped out and we be governed by a commission from Washington. If they tell the truth they cannot deny it.

"One of the arguments to disfranchise you that they will use, I predict, if they ever have supreme power in Washington, is that the Hawaiians have no parity stability, but that you have made laukeas out of yourselves and have belonged to three parties in as many years and are waiting for a fourth." (Applause)

### POLICE ON ELECTION DAY

Chief Clerk Buckland called on Sheriff Brown yesterday in relation to the stationing of police at and near the voting booths on election day. The arrangements will be about the same as they were last year, when in the quiet precincts only one police officer was stationed at a booth and where there were very many voters or trouble was likely to occur two or more. No difficulties of any kind are anticipated on November 6.

### PINKHAM ROASTS ASTOUNDING GAIL

Examination of Japanese Doctor Made Under Protest

At the meeting of the Board of Health this afternoon President Pinkham read the following message:

I herewith hand you the September report of the Food Commissioner. Herewith hand you the report of the Board of Medical Examiners in which they state they are unable to recommend Dr. Tsutsumi for a license to practice medicine and surgery in this Territory. You will note this examination, under protest, was conducted through Japanese interpreters. This case presents the remarkable and heretofore unheard of instance of an individual alien demanding the right to dictate to a friendly political entity in what manner it shall exercise its rights of sovereignty and regulate the domestic relations of its inhabitants.

The presumption is astounding and no known civilized country concedes such privileges. The medical profession welcomes into its association irrespective of nationality any physician professionally and ethically qualified and the Japanese have been signally honored in these respects by both the profession and the Board of Health.
